

Selectpaymentpage

Select Payment Page Objective ■ This document aims to define the functionality and structure required to develop a Select Payment Page in a web application. The Select Payment Page allows users to choose from various payment methods available for completing transactions.

Overview ■ The Select Payment Page presents users with options to choose their preferred payment method(s) to complete a transaction. It acts as an interface for users to select among available payment options. The Select Payment Page will consist of the following components: Displays available payment methods: Credit/Debit card PayPal Google Pay Apple Pay Other applicable methods Highlights or indicates the currently selected payment method. May include additional details based on the chosen method. Provides a button to proceed to the payment process upon selecting a payment method. Acts as the main container, rendering PaymentOptions, SelectedPaymentMethod, and ContinueToPaymentButton components. Manages user interaction and data flow related to payment method selection. **Functionality:** ■

Display Payment Options ■ Renders a list of available payment methods for users to choose from. Highlights or visually indicates the selected payment method. **Select Payment Method** ■

Allows users to click or select their preferred payment method. Updates the SelectedPaymentMethod component to display the chosen method and any additional details.

Proceed to Payment ■ Activates the ContinueToPaymentButton upon selecting a payment method. Initiates the transition to the payment process or the next step in the checkout flow.

Testing: ■ Conducts unit tests for each component and functionality. Ensures accurate display and selection of payment methods. Verifies the functionality of the "Continue to Payment" button.

Future Enhancements: ■ Implement additional payment methods based on user preferences or geographical location. Incorporate saved payment methods for registered users. Enhance security measures for payment transactions. **Conclusion:** ■ The Select Payment Page provides users with the flexibility to choose their preferred payment method, enhancing the checkout experience and enabling smooth transaction completion within the application.
